ADDENDUM No. 3

TOWN OF SIMSBURY

Invitation to Bid

FOR

Firetown Road Sidewalk Improvements

The information provided in this Addendum is intended to supplement and clarify the existing information in the ITB and is not to replace any part of the specification unless clearly indicated as such.

Question: We received a question about the intent for the intersection of Firetown Road and Timber Ridge Road.

Response: **On the North side of the intersection, the ramp is meant to move to the east side of the catch basin in line with the ramp on the south side of the intersection, approximate location shown on picture below.**

On the South side of the intersection, the contractor is expected to route the sidewalk to the location shown in the picture, and coordinate the relocation of the guy-wire for the utility pole with Eversource. If further work is required to fit the sidewalk in this location it will be discussed and evaluated as necessary by the project engineer.
